The Ixtapa Experience

For six days we will dive deep into the Great Mystery of “Who You Are” and “What is Life”. Together, we will build an indescribable, loving, joyful energy that has the power to transform any life and introduce you to your next level. The day starts with waking to the sound of the ocean. Yoga and breakfast lead the activities followed by the morning gathering in the group room.

Each day is an adventure, combining meditation, experiential challenges, ecstatic movement, sharing, energetic healing and profoundly inspiring ceremony. The incredible beauty and healing nature of the natural environment will play a big role in holding the space for the experience to unfold.

There will be free time to use as you wish: hiking, exploring, connecting or relaxing, kayaking, horseback riding, visiting the local community, walking the beach or quiet reflection will be optional activities.

The **Present Moment Retreat** is a beautiful facility set on Troncones beach with spectacular views of the ocean. The rooms are beautiful thatched hut design with hot running water and electricity. The grounds include a swimming pool, yoga pavilion, and a meditation garden. Your gourmet dinners will be expertly prepared by the Present Moment chefs at the ocean side restaurant.
